

# K2 BRAKE CALIPER PAINT

**K2 BRAKE CALIPER PAINT** - High temperature caliper paint formulated with high quality resins. It creates a durable protective coating, works anti-corrosive and ensures the unique appearance of brake calipers in car.

**Directions:** 1. Use for caliper painting with or without disassemble. 2. Clean the surface with a sanding paper of 240-360 grade prior to painting. 3. Degrease surface. 4. In case of painting without disassemble completely mask all the surrounding parts. 5. Shake the can for 2 minute before use. 6. Apply 2-3 coats from the distance of 20-30 cm, with 10 min. intervals. Do not allow the product to coat friction elements, cables and moving brake parts.

- Drying time 30-60 min
- Full cure 12h at 20°C
