

Polyurethane Draincover:

Ideal for quick sealing of manhole shafts with surface leaked liquid. Also suitable for preventive use during transport, loading and unloading as well as transfer of hazardous substances

- Strong adhesive on the underside to ensure sealing
- Top side reinforced with polyester-silicone coating
- Two handles on each side for safe and quick handling
- Reusable, can be cleaned with soap and water
- Including Transport and storage Box
- Available in several sizes: The cover should be about 20 cm above the shaft on each side
