

Interflon Fin Super Dry Lube

Multipurpose oil for your fishing equipment

The versatility of this oil lies in its universal use – the oil cleans, lubricates, preserves and protects against corrosion, also in salty environments.

Interflon Fin Super Dry Lube is recommended by many fishermen and fishing professionals.

- ⦿ Non-Greasy compared to conventional oils
- ⦿ Small, practical packaging for easy handling
- ⦿ Clean, dry lubrication and anti-corrosion protection of vital parts such as gears, ball bearings, mill cranks and mill slips
- ⦿ Guarantees the correct working of all moving elements, reduces wear and tear, avoids costly repairs
- ⦿ Works its way in to the most narrow spaces of your equipment leaving a dry lubricating film with MicPol® sliding particles avoiding sticking of dust, sand and air-born particles
- ⦿ User-friendly and replaces several products
- ⦿ Extends the lubrication interval up to 10 times
- ⦿ Protects your reel and make it last for years

Interflon for maintenance of your fishing equipment all year around

● **Lubrication and preservation:**
Application of Interflon Fin Super Dry Lube according to instructions below.

● **Component assembly:**
On bearings, bolts, handlebar heads and wheel axles use Interflon Assembly Grease. The Interflon Tube dispenser helps you to lubricate the precise amount.

● **Cleaning:**
Rinse off coarse dirt with water. For fine dirt and residues of the original lubricant use Interflon Metal Clean F.

Instruction for using Interflon Fin Super Dry Lube

Shake the product: Apply on a cleaned surface and leave for 10 minutes. Then wipe off all oil = dry lubrication with MicPol®. With subsequent applications, it is no longer necessary to use a cleaner.
