3M™ Knifeless Tapes

Changing the installation experience.

Make the installation experience easier with 3M™ Knifeless Tape. Easily cut through any graphic film with sharp and clean lines — no matter the design!

Cuts like a knife. Only better.

Get a line on the lineup of tapes that lets you do more.

Knifeless Tapes were inspired by the idea of never having to worry about surface damage when cutting any graphic film. Designed by graphics installers for graphics installers, Knifeless Tape gives new installers the opportunity to start trimming sooner, gaining confidence. And it takes experienced installers to the next level — increasing their speed and unleashing their creativity. What could be better than that?

3M™ Finish Line Knifeless Tape

KTS-FL1

Our #1 product set the new industry standard for finishing vehicle graphic installations without a blade.

- ▶ Easily cuts most vinyl wrap films
- ▶ Patented design turns easily in any direction to follow contours and curves
- ▶ For single or multiple vinyl layer applications

▲ Follow contours and curves on any part of the vehicle.

3M™ Design Line Knifeless Tape

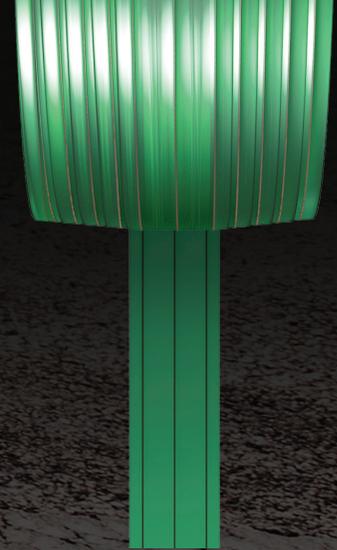

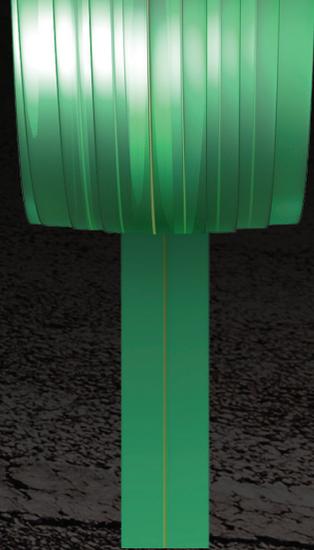

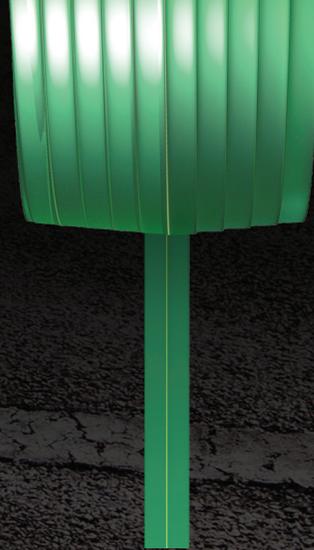

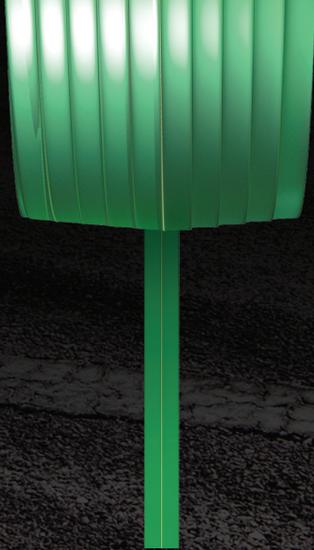

KTS-DL1

Flexible tape and filament are engineered to easily create highly contoured designs and leave a sharp, clean edge.

- ▶ Create striping, accents and designs that rival using a knife or plotter
- ▶ Patented design stretches slightly and turns easily in any direction for one-of-a-kind works of art
- ▶ Tape can be broken with hands for faster application
- ▶ For single layer vinyl applications

▲ Create unique accents and designs.

3M™ Precision Line Knifeless Tape

KTS-PL1

This revolutionary tool gives even the most challenging film installations a sharp, clean edge.

- ▶ Ultra-fine, ultra-sharp filament cuts reflective, metallic, chrome, dry-erase, 3M™ DI-NOC™ films, overlaminates, paint protection film*, plus many other vinyl and non-vinyl films
- ▶ Patented design turns easily in any direction to follow contours and curves
- ▶ For single or multiple layer applications

*Test and approve when using Precision Line Knifeless Tape while cutting paint protection film. Refer to the product bulletin for more information including the use of a cover tape for a cleaner cut.

3M™ Perf Line Knifeless Tape

KTS-PERF1

Easily cut a uniform margin between window graphic and rubber molding.

- ▶ Use to cut laminated, perforated window films and create a uniform relief cut along rubber molding before applying edge-sealing tape
- ▶ Can be used to bridge tight gaps and trimming

3M™ Bridge Line Knifeless Tape

KTS-BL1

Create evenly cut graphics bridging from one panel to the next for a professional finish.

- ▶ Use to achieve clean and uniform cuts in wide gaps between doors, fenders and rubber moldings
- ▶ For single or multiple vinyl layer applications

3M™ Tri Line Knifeless Tape

KTS-TL6 & KTS-TL9

Unique, triple-lined tape ensures accurate, consistent stripe width from one end of the vehicle to the other.

- ▶ Create pinstripes, gaps and butt seams that rival using a knife or plotter
- ▶ Create different widths using 6mm, 9mm or a combination of both
- ▶ Patented design stretches slightly and turns easily in any direction for one-of-a-kind works of art
- ▶ Tape can be broken with hands for faster application
- ▶ For single layer vinyl applications

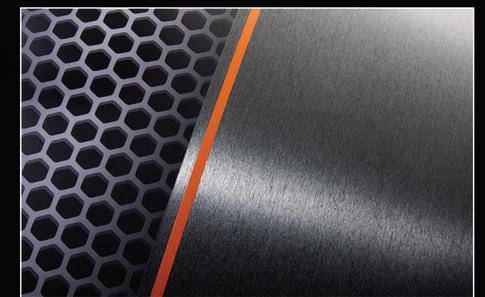

▲ Create a clean, seamless butt joint between two challenging films.

▲ Create a uniform relief cut between window graphic and rubber molding.

▲ Evenly cut in gaps between car panels.

▲ Create consistent pinstripes using any wrap films.

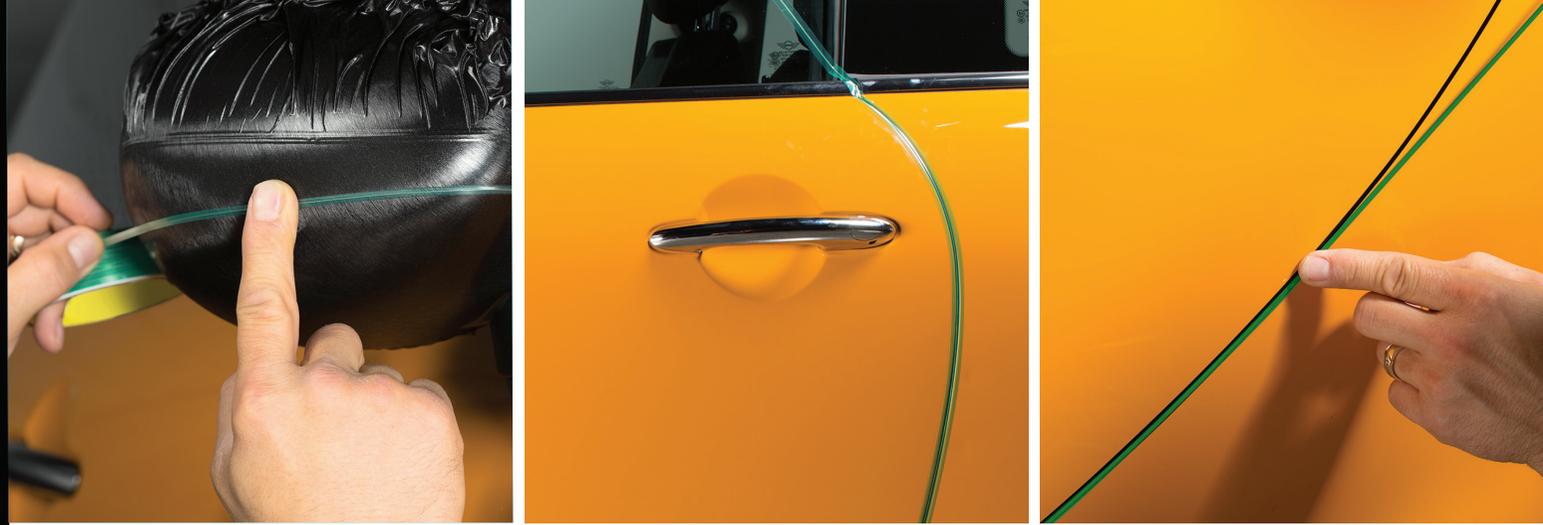

Become a 3M™ Endorsed Installer for Knifeless Tape.

Want to join the best of the best? Knifeless Tape training and testing are available at 3M authorized training sites. Qualified installers can promote themselves as the best in the business, and we'll feature their services on our website and social media.
